

ADVOCACY

Our service will assess your needs and risk, provide general advocacy, support and information on domestic and sexual abuse, while helping to maintain any engagement with the criminal justice system

SUPPORT

Support is at the heart of ASSIST NI. Our support starts as soon as a person is accepted into ASSIST NI's service and takes into account their individual needs. This may also involve engagement with other expert service providers.

SAFETY

At ASSIST NI, we know that safety is paramount for victims. We use our expertise in the field to risk assess and safety plan for those engaging in our service.

INFORMATION

We provide a range of services, care and support to those engaging with us and pride ourselves on facilitating this to the best of our ability.

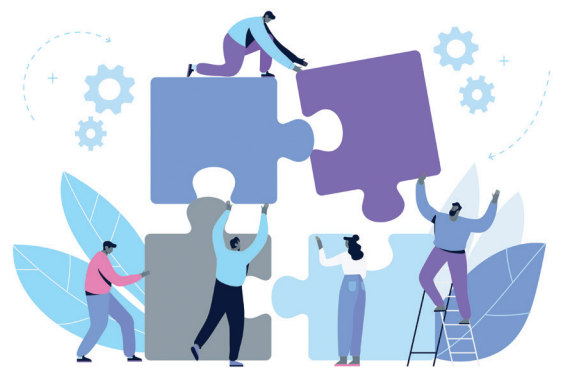

SERVICES

We believe in involving victims using our service by providing information and assistance, helping them better understand what services are available and what the criminal justice process will entail.

TOGETHER

Every member of the team at ASSIST NI is passionate about giving victims the chance to have their voice heard, working with you and advocating on your behalf. We create a dialogue with qualifying victims, primarily those engaging with the criminal justice process, the Rowan or Multi Agency Risk Assessment Conferences, helping them navigate their journey with us as well as through the criminal justice process.

At ASSIST NI, we pride ourselves on providing a service for victims by working together with other support services within the community. Our service is available across Northern Ireland.
